

COMMITMENT TO COMMUNITY FEES

Effective Since January 1, 2011

Commitment to Community programs promote energy conservation and help qualifying households afford the energy they need. All electric utilities in the State of Wisconsin are required to collect this type of fee. The last change in these rates was in January 2011. *This program was formerly referred to as the "Public Benefits Program."*

The State has given us, at the Cedarburg Utility, permission to administer our own local programs with revenues collected including various ongoing programs such as conservation education in our schools, energy-efficiency improvements in local municipal buildings, and bill payment assistance to income-qualified customers. With the revenues collected, we are also able to offer our residential and business customers full access to programs administered through Wisconsin's Focus on Energy program. Cedarburg customers get "the best of both worlds" — local programs and access to statewide programs.

For more information on programs that can improve the energy efficiency of your home or business, check out:

- **Local programs** at www.cedarburglightandwater.org, click on "For Your Home" or "For Your Business," and then "Energy Efficiency Programs" or call us at (262) 375-7650.
- **State-wide programs** at www.focusonenergy.com or call (800) 762-7077.

For more information on energy assistance:

Contact Energy Services of Ozaukee County at 1-262-261-0020 to determine eligibility for the Wisconsin Home Energy Assistance Program (WHEAP). This will also determine your eligibility for assistance through our Commitment to Community program.

RATE CLASS	COMMITMENT TO COMMUNITY CHARGE
Residential	Rg-1 & Rg-2 accounts: 3.00% of current month's electric bill or \$1.40, whichever is lower.
General Service	Gs-1 & Gs-2 accounts: 2.00% of current month's electric bill or \$2.00, whichever is lower.
Power	<p>Cp-1 accounts: 0.50% of current month's electric bill or \$4.00, whichever is lower.</p> <p>Cp-2 accounts: 0.50% of current month's electric bill or \$6.00, whichever is lower.</p> <p>Cp-3 accounts: 0.30% of current month's electric bill or \$10.00, whichever is lower.</p> <p>Cp-4 accounts: 0.15% of current month's electric bill or \$25.00, whichever is lower.</p>

WATER RATES

Effective January 1, 2015

There will be no change to Cedarburg's water rates in 2016. The last change in water rates occurred in January 2015. You will find our water rates to be quite economical ... starting out at \$3.20 for 1,000 gallons. Clean, reliable, safe and convenient ... right from the tap!

MONTHLY FIXED CHARGE

Fixed charges are based on the size of water meter installed at your location. 5/8" or 3/4" meters are adequate for most homes.

METER SIZE	METER CHARGE	FIRE FLOW CAPACITY CHARGE*
5/8"	\$9.00	\$8.95
3/4"	\$9.00	\$8.95
1"	\$13.00	\$22.40
1 1/4"	\$17.00	\$33.10
1 1/2"	\$21.00	\$44.70
2"	\$32.00	\$71.50
3"	\$48.00	\$134.00
4"	\$80.00	\$223.00
6"	\$140.00	\$447.00
8"	\$210.00	\$716.00

*The fire flow capacity charge shown above covers costs to oversize Cedarburg's water system. This oversizing would not be needed for day-to-day water use, but is needed to ensure adequate water flow in the event that the water system is used for fire fighting.

VOLUME CHARGE

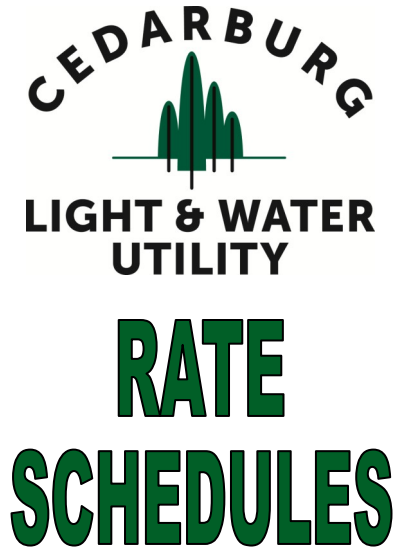

QUANTITY	RATE
First 68,000 gallons	\$3.20 per 1,000 gallons
Next 267,000 gallons	\$2.50 per 1,000 gallons
Over 335,000 gallons	\$2.25 per 1,000 gallons

HOW DO OUR RATES COMPARE?

Cedarburg's electric rates are considerably lower than rates paid in surrounding communities, and Cedarburg's water rates are about average. If you'd like to compare the rates you pay with rates paid in other communities, visit the **RATE CALCULATOR** on the PSC's website at psc.wi.gov. Note that We Energies provides electricity to most communities in southeastern Wisconsin — they are listed as "Wisconsin Electric Power Company" on the website.

Having served the Cedarburg community for the last 115 years, Cedarburg Light & Water takes pride in providing reliable service at the lowest possible cost. As a nonprofit utility, we regularly review our rates to ensure enough revenue is received to cover our cost of doing business. We exist solely for the benefit of our community and our customers and only charge customers the cost to provide safe and reliable service. We are honored to be an integral part of the community that we serve.

ELECTRIC RATES

Effective Since May 1, 2016

The Public Service Commission of Wisconsin has authorized a 1.57% overall increase in Cedarburg's electric revenues to cover increased costs to operate the local utility and distribute reliable, local power. The actual change to individual customers will vary with electricity usage and rate class. New rates are effective May 1, 2016. This is the first change in the your electric rates since January 2011.

New rates are as follows. Further information on the rate change, including a side-by-side comparison of new vs. old electric rates, as well as various residential billing scenarios, can be found on our website. If you would like to know how the rate change will specifically affect your home or your business, please contact our office and we will run a comparison for you. Thank you!

RESIDENTIAL

Rg-1 Standard Rate

Customer Charge*	\$14.00/month
Energy	\$0.1131/kWh
Plus Power Cost Adjustment (see note at bottom of next panel)	

Rg-2 Optional Time-of-Day Rate

Customer Charge*	\$14.00/month
On Peak Energy (see periods below)	\$0.1879/kWh
Off Peak Energy	\$0.0749/kWh
Plus Power Cost Adjustment (see note at bottom of next panel)	

"On-Peak" periods available:
7am to 7pm, 8am to 8pm or 9am to 9pm,
Monday through Friday, excluding specified holidays.

Is the time-of-day rate right for you? Ask us for a time-of-day brochure or look for more information on our website at www.cedarburglightandwater.org.

*Above customer charge based on single phase service. Customer charge for three phase service is \$26.00/month.

GENERAL SERVICE

Customers under 50 KW Demand

Gs-1 Standard Rate

Customer Charge*	\$14.00/month
Energy	\$0.1185/kWh
Plus Power Cost Adjustment (see note at bottom of next panel)	

Gs-2 Optional Time-of-Day Rate

Customer Charge*	\$14.00/month
On Peak Energy (see periods below)	\$0.1924/kWh
Off Peak Energy	\$0.0794/kWh
Plus Power Cost Adjustment (see note at bottom of next panel)	

"On-Peak" periods available:
7am to 7pm, 8am to 8pm or 9am to 9pm,
Monday through Friday, excluding specified holidays.

Is the time-of-day rate right for your business? Ask us for a time-of-day brochure or look for more information on our website at www.cedarburglightandwater.org.

*Above customer charge based on single phase service. Customer charge for three phase service is \$26.00/month.

SMALL POWER SERVICE

Customers between 50 KW and 200 KW Demand

Customers on the Cp-1 or Cp-2 rate who are metered on the primary side receive a discount. A discount is also available for customers who own and maintain their own transformer/substation equipment.

Cp-1 Standard Rate

Customer Charge	\$100.00/month
Energy	\$0.0790/kWh
Demand	\$8.50/KW
Distribution Demand	\$1.50/KW
Plus Power Cost Adjustment (see note at bottom of this panel)	

Cp-2 Optional Time-of-Day Rate

Customer Charge	\$100.00/month
On Peak Energy (see periods below)	\$0.0929/kWh
Off Peak Energy	\$0.0689/kWh
On Peak Demand	\$8.50/KW
Distribution Demand	\$1.50/KW
Plus Power Cost Adjustment (see note at bottom of this panel)	

"On-peak" period is 8am to 8pm, Monday through Friday, excluding specified holidays.

LARGE POWER

Customers between 200 KW and 1000 KW Demand

Customers on this rate who are metered on the primary side receive a discount. A discount is also available for customers who own and maintain their own transformer/substation equipment.

Cp-3 Time-of-Day Rate

Customer Charge	\$200.00/month
On Peak Energy (see periods below)	\$0.0833/kWh
Off Peak Energy	\$0.0623/kWh
On Peak Demand (adj'd to 90% power factor)	\$9.50/KW
Distribution Demand	\$1.75/KW
Plus Power Cost Adjustment (see note at bottom of this panel)	

"On-peak" period is 8am to 8pm, Monday through Friday, excluding specified holidays.

INDUSTRIAL POWER

Customers over 1000 KW Demand. Must be Primary Metered & Own Transformer/Substation Equipment.

Cp-4 Time-of-Day Rate

Customer Charge	\$250.00/month
On Peak Energy (see periods below)	\$0.0779/kWh
Off Peak Energy	\$0.0589/kWh
On Peak Demand (adj'd to 90% power factor)	\$10.00/KW
Distribution Demand	\$2.00/KW
Plus Power Cost Adjustment (see note at bottom of this panel)	

"On-peak" period is 8am to 8pm, Monday through Friday, excluding specified holidays.

"Power Cost Adjustment" varies monthly depending how the current cost to generate electricity and deliver it to Cedarburg varies from the average cost that was anticipated in the utility's most recent rate case.

RENEWABLE ENERGY RATES—OPTIONAL

Effective Since January 1, 2008

The energy decisions you make today can support a cleaner environment tomorrow. This is an optional program for customers of Cedarburg Light & Water. Rates shown below have been in effect since January 2008.

Why renewable energy?

- It's clean. The more energy we use from renewable resources, the less we need to rely on fossil-fuel based energy. We can reduce carbon dioxide emissions and keep the air that we breathe cleaner.
- It's secure. Renewable energy is in use all over the country and has proven reliable. And because it's produced from resources that are available here at home, renewable energy can reduce our dependence on foreign oil.
- It's sustainable. Renewable energy sources such as wind, water and biogas can never be depleted. That's not true of conventional generation sources such as coal, oil and natural gas. If we want to ensure an unlimited supply of energy resources for future generations, renewable energy is the way to go.

Through Cedarburg's ownership in WPPI Energy, a regional power company serving 51 customer-owned utilities in Wisconsin, Upper Michigan and Iowa, **we share generation resources and have access to energy from wind, hydro-power and biogas.** You may purchase energy from these renewable facilities by signing up to purchase one or more "blocks" of renewable energy.

Each "block" of renewable energy you purchase is the equivalent of 300 kilowatt-hours (kWhs). For example, if you sign up for two blocks, you will be purchasing 600 kWhs from renewable resources and an additional charge of \$6.00 will appear on your monthly bill. There's no special equipment to install and no difference in the way you receive or use energy at home. Your investment helps to maintain and expand renewable generation facilities. You can change your participation level or withdraw from the program at any time.

Please let us know if you would like to invest in renewable energy.

ELECTRIC RATE CLASS	CHARGE
All rate classes (Rg-1&2, Gs-1&2, Cp-1, Cp-2, Cp-3, Cp-4, Ms-1, Ms-2 and Mp-1)	\$3.00 per 300 kWh block of renewable energy per month. Purchase one or more blocks. The <u>additional</u> charge appears as a separate line item on your monthly bill. <i>For large business customers opting to purchase 100 or more blocks, discounted rate is \$2.00 per block per month.</i>
