

Meter Replacement Project

Hello there — we wanted to make you aware that Cedarburg Light & Water will begin the replacement of all electric and water meters starting in May 2017. The new meters will no longer require your friendly meter reader to walk throughout your neighborhood each month. The new meters will provide timely information that will allow Cedarburg Light & Water to serve you better!

Anticipated Timeline

May 2017

Kickoff replacement of electric meters

Fall 2017

Kickoff replacement of water meters

December 2018

Completion of electric meter replacements

September 2019

Completion of water meter replacements

What's Next?

Electric Customers -

We will send a letter to you approximately two weeks prior to the crews beginning the replacement of electric meters, to let you know when we will be in your neighborhood. There is no need for you to be home while we perform this work!

More info on reverse side >>>

Water Customers -

We will send you a letter to schedule a time when we can change out the water meter, located in your basement. For meters installed within the last six years, we will only need to activate the remote reading function of your current water meter.

We look forward to working with all of our customers to enhance our electric and water services!
